WHEREAS, the City Council held a public hearing regarding the FY 2014 budget on October 13, 2012; and

WHEREAS, the City Manager presented to City Council at its December 11, 2012 budget work session, preliminary forecasts of revenues and expenditures; and

WHEREAS, the City Council's deliberations on the budget each year reflect a balancing of the goals articulated in the City's Strategic Plan with the ability to pay for the appropriate level of services associated with those goals; and

WHEREAS, the City Council is committed to continuously improving City government effectiveness and efficiency and expects the City Manager and City staff to focus on achieving goals identified in the Strategic Plan; and

WHEREAS, the City Council is committed to continue providing core services expected of a municipal government and to continue to provide effective services and infrastructure for the residents and businesses of Alexandria; and

WHEREAS, the City Council understands that it will be a challenge to achieve many of the goals delineated in the Strategic Plan with the resources currently available; and

WHEREAS, the City Council recognizes the need to measure the impact of programs and activities against the expected goals in the Strategic Plan, to deemphasize programs that may not be as closely aligned with those goals as defined by their long term outcome, to identify efficiencies, and emphasize a multi-year plan to link future budgets to the achievement of strategic goals and objectives;

**NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF
ALEXANDRIA THE FOLLOWING:**

(a) Operating and Capital Improvement Program Expenditures: The City Manager may propose for Council consideration, increases in operating and capital project expenditures including compensation adjustments so long as any increased operating or capital project expense can be demonstrated as necessary to meet the strategic goals and objectives of the City, and/or can be demonstrated to diminish a specific risk to the community. Likewise, the City Manager may propose decreases in operating and capital project expenditures provided the decrease can be demonstrated to be of lesser utility in achieving the goals and objectives of the City's Strategic Plan. An appropriate source of revenue, compliant with applicable laws regarding revenue sources as established by the Code of Virginia, must be designated for all proposed operating and capital project expenditures.

(b) Taxes, Fees, Fines and Service Charges: The City Manager may propose changes to taxes, fees, fines and service charges that are equitable, fair and administratively feasible provided that these proposals are observant of the constraints imposed by the Code of Virginia. The City Manager is encouraged to propose updates to fees, fines and service charges on an appropriate frequency to ensure currency.

(c) Cost Saving Measures: The City Manager shall continually identify and implement cost saving measures and efficiencies in all City operations—and shall include an accounting of the fiscal impact of those measures in the proposed budget.

(d) Use of Surplus: The City Manager will recommend use of surplus funds first to ensure that the Capital Improvement Program includes sufficient cash capital funding, then to address one-time costs that positively impact the expected goals in the Strategic Plan.

(e) Capital Expenditures: The City Manager shall not decrease the cash capital commitment to the CIP below the levels in the approved FY 2013-2022 CIP.

(f) ACPS Funding: That the City Manager recommend for transfer to the Alexandria City Public Schools an appropriation equal the amount approved by City Council for FY 13, except that the City Manager may vary from the FY 13 approved appropriation if specifically to address anticipated changes in student enrollment or expense changes resulting from cost saving measures employed by ACPS.

(g) Capital Improvement Program (CIP): The City Manager's proposed base CIP shall include:

(1) Specific estimates for expenditures and revenues for FY 2014 through FY 2019 and preliminary estimates of revenue and expenditures for FY 2020 through FY 2023;

(2) Provide funding for projects that are either entirely unfunded in the base CIP or are only allocated funding in the latter 5 years of the proposed CIP.

(3) Projects included in this proposal shall directly align to the goals of the City's Strategic Plan, and shall work to address acute capital needs in:

- a. Education physical plant capacity

(ii) any such motion or amendment that has the effect of increasing any specific budget expenditures proposed by the City Manager or would have the effect of reducing any specific revenue proposed by the City Manager unless such motion or amendment provides for a specific offset of either expenditure or revenue and ensures the maintenance of the fiscal balance of the proposed budget; and

City of Alexandria, Virginia Financial Policies

The following pages provide the principles and policies that guide the City's overall financial management. These policies include :

Debt Related Financial Policy Guidelines - These policies guide City Council and staff in determining the debt capacity of the City, managing the impact of debt service on the operating budget, and maintaining adequate fund balances to cope with unexpected financial problems or emergencies.

Investment Policy – These policies guide the City's Treasurer in the management of all cash and cash equivalents, defined in the City of Alexandria's Comprehensive Annual Financial Report (CAFR), excluding pension funds.

Financial Management Self-Assessment Using Standard and Poor's Rating Criteria – The City prepares this every year prior to going to the rating agencies for the affirmation of our credit rating. This checklist provides a self-assessment of all financial policies and procedures relevant to maintaining the City's financial sustainability.

Debt Ratio Policies Debt Related Financial Policies

City Council passed a set of debt-related financial policies on June 9, 1987. During FY 1998, the Budget and Fiscal Affairs Advisory Committee (BFAAC), a City Council appointed citizen committee, analyzed these debt-related financial policies, and examined the City's financial condition in comparison to other jurisdictions with superior credit ratings (other double-triple A rated jurisdictions). The BFAAC and the City Manager recommended that City Council reaffirm the updated debt-related financial policies, incorporating BFAAC's recommended updates to the policies to establish a consistent set of appropriate relationships between debt targets and limits. Because three of the six debt indicators measure the debt capacity of the City in relation to the size of the City and its economy, BFAAC recommended that these indicators should not produce debt capacity limits that vary greatly from each other. Note the terminology has been updated to reflect required changes to government accounting rules.

City Council reaffirmed its commitment to sound financial management and adopted the updated debt-related financial policies on December 9, 1997. City Council amended the policies on October 26, 1999, to allow priority consideration for an increase in the assignment of fund balance for capital project funding.

On June 24, 2008, City Council adopted the City Manager's recommendation, endorsed by BFAAC, to revise the target and limit upward reflecting the ratio of debt as a percentage of total personal income.

These updated policies are as follows:

Debt as a Percentage of Fair Market Real Property Value
Target = 1.1 percent; Limit = 1.6 percent

This ratio indicates the relationship between the City's debt and the full value of real property in the City as assessed annually at fair market value. It is an important indicator of the City's ability to repay debt because real property taxes are the primary source of the City's revenues used to repay debt. A small ratio is an indication that the City will be better able to withstand possible future economic downturns and continue to meet its debt obligations.

Debt as a Percentage of Total Personal Income
Target = 3.2 percent; Limit = 4.5 percent

This percentage is a measure of the capacity of citizens to finance tax-supported debt. A lower percentage means that taxes required to repay debt represent a smaller portion of the average citizen's income.

Debt Service as a Percentage of General Government Expenditures
Target = 8.0 percent; Limit = 10 percent

This ratio is a measure of the City's ability to repay debt without hampering other City services. A small ratio indicates a lesser burden on the City's operating budget.

Unassigned/Uncommitted General Fund Balance as a Percentage of General Fund Revenue

Target = Not applicable; Limit = 10 percent

Unassigned General Fund Balance as a Percentage of General Fund Revenue

Target = 5.5 percent; Limit = 4.0 percent

Net Assets as a Percentage of General Revenues

Target = 5.5 percent; Limit = 4.0 percent

These ratios indicate the ability of the City to cope with unexpected financial problems or emergencies. The Unassigned/Uncommitted General Fund Balance represents the funds legally available to the City. It is desirable that the City maintain Unassigned/Uncommitted General Fund Balance that is comparable to the ratio maintained by other double-triple A rated jurisdictions, but not to fall below the limit of 10 percent. The Unassigned General Fund Balance corresponds to the checkbook balance of the City. Both balances are important to consider. The unassigned/uncommitted balance includes commitments that the City Council has made and assignments City management has made but presumably could change. Net assets correspond to stockholders' equity for publicly traded companies. The larger the Unassigned General Fund Balance or spendable net assets, the greater the City's ability to cope with financial emergencies and fluctuations in revenue cycles.

The ratios for Unassigned General Fund Balance and spendable net assets are calculated after adjusting for the effect of subsequent year's expenditures, and funding for future equipment replacement and capital projects, grants and contributions restricted to specific programs, and extraordinary and special items.

The City will not issue tax or revenue anticipation notes to fund ongoing governmental operations. The City of Alexandria will manage its cash in a fashion that will prevent any borrowing to meet working capital needs.

The City will not issue bond anticipation notes (BAN's) for a period of longer than two years. If the City issues a BAN for a capital project, the BAN will be converted to a long-term bond or redeemed at its expiration, but will not be rolled over.

The City will continue to rely on current revenue, including its fund balance, to finance its short-lived and maintenance-oriented capital improvements. The City believes in funding a significant portion of capital improvements on a pay as you go basis; therefore, the City will continue to finance short-lived and maintenance-oriented capital improvements with current revenues, and its fund balance. The priority to consider when additional General Fund revenues become available at the end of the fiscal year would be an assignment within the General Fund fund balance for pay as you go capital.

The City will not establish a trend of using General Fund equity to finance current recurring operations. The City's General Fund equity has been built over the years to provide the City with sufficient working capital and to enable it to finance equipment replacement, capital projects, and unforeseen emergencies without borrowing. To conserve the General Fund equity balance and to avoid reliance on this balance, the City will not finance recurring operations from the General Fund equity balance for periods longer than two years as confirmed by the audited financial statements. If the audited financial statements confirm that recurring operations have been funded from the General Fund equity balance for a period longer than two consecutive fiscal years, then the City will adopt in its next ensuing budget a balanced budget in which the operating revenues meet the operating expenditures without any consideration of the General Fund equity balance.

In accordance with the City Charter and in order to meet the debt ratio targets, to schedule debt issuance, and to systematically improve the capital structure, each year the City will prepare and adopt a six-year capital improvement program. This capital improvement program will identify the source of funding for all capital projects. The debt issuances that are a part of the capital improvement program will be structured to meet the City's debt policies and debt ratio targets.

The City Manager will prepare each year and submit a set of ten-year scenarios of possible future revenues and expenditures that match the ten-year Capital Improvement Program time horizon with the proposed budget to be considered by the City Council. Those scenarios will be updated to reflect the decisions of the City Council and issued with the approved budget. In order to improve financial planning and decisions, the City Manager also will annually prepare with the approved budget a set of ten-year scenarios of possible future General Fund revenues and expenditures and their effects on the debt-related financial policy ratios outlined above, including the effect of planned borrowing under the approved CIP.

In accordance with the Government Finance Officers Association budget review requirements, this table, taken from the City's FY 2012 Comprehensive Annual Financial Report, is repeated here:

Limitations on the Incurrence of General Obligation Debt:

There is no requirement in the Virginia Constitution, the Virginia Statutes or in the Charter of the City of Alexandria that the issuance of general obligation bonds of the City be subject to approval of the electors of the City at referendum.

Under the City Charter, the City Council has full authority to authorize and issue general obligation bonds. The authorizing procedure consists of the passage on first reading of an ordinance authorizing the issuance of the bonds followed by a notice of public hearing at a subsequent meeting and the final passage on second reading following the public hearing.

The only constitutional limitation on the issuance of general obligation bonds is contained in Article VII, Section 10 of the Virginia Constitution, which states that: No city or town shall issue any bonds or other interest-bearing obligations which, including existing indebtedness, shall at any time exceed ten percent of the assessed valuation of real estate in the city or town subject to taxation, as shown by the last preceding assessment for taxes.

City of Alexandria, Virginia
Investment Policy
Adopted June 4, 2008

1. Policy Statement

It is the policy of the City of Alexandria that the administration of Deposits of Cash and Cash Equivalents, and their investment, shall be handled as its highest public trust. Investments shall be made in a manner that provides maximum security of principal invested and conforms to all applicable statutes of the Commonwealth of Virginia governing the investment of public funds. The portfolio shall consist of U.S. Treasuries, Agencies, "prime-quality" commercial paper (suspended pending future authorization by the City's Investment Committee), repurchase agreements and/or the Virginia Local Government Investment Pool. The portfolio shall have an average maturity of up to one year, while remaining liquid to meet the daily cash flow needs of the City. The receipt of a market rate of return will be secondary to safety and liquidity requirements.

2. Scope

This investment policy applies to all Deposits of Cash and Cash Equivalents, defined in the City of Alexandria's Comprehensive Annual Financial Report (CAFR), excluding pension funds. The City commingles its funds into one pooled investment fund for efficiency and maximum investment opportunity. Any new Deposits of Cash and Cash Equivalents will also be commingled unless specifically exempted by City Council and this policy. Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

3. Objective and Strategy

It is the policy of the City of Alexandria that all Deposits of Cash and Cash Equivalents shall be managed and invested with three primary objectives, listed in order of their priority: safety, liquidity and yield.

a. Safety of Principal. Safety of principal is the foremost objective of the City of Alexandria. Investments of the City shall be made in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit risk and interest rate risk.

The City will minimize credit risk, the risk of loss due to the failure of the security issuer or backer, by:

Limiting investments to the safest types of securities.

Pre-qualifying the financial institutions, broker/dealers, intermediaries and advisers with which the City will do business.

Diversifying the investment portfolio so that potential losses on individual securities will be minimized.

The City will minimize the risk that the market value of securities in the portfolio will fall due to changes in general interest rates, by:

Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity.

Investing operating funds primarily in shorter-term securities.

b. Liquidity. The City of Alexandria's investment portfolio will remain sufficiently liquid to enable it to meet all operating requirements that might be reasonably anticipated. This will be accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands. Furthermore, since all possible cash demands cannot be anticipated, the portfolio will consist largely of securities with active secondary or resale markets.

Cash flow forecasting is designed to ensure adequate liquid funds to meet the City of Alexandria's cash-flow requirements. Supplemental to the financial and budgetary systems, the Investment Committee and the external cash manager will maintain a cash-flow forecasting process designed to monitor and forecast cash positions for investment purposes.

c. Yield. The City of Alexandria's investment portfolio shall be structured with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the City's investment risk constraints and liquidity needs. "Market rate of return" may be defined as the average yield of the current six-month U.S. Treasury Bill. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core of investments is limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed. Securities shall not be sold prior to maturity with the following exceptions:

A security with declining credit may be sold early to minimize loss of principal.

A security swap would improve the quality, yield, or target duration in the portfolio.

Liquidity needs of the portfolio require that the security be sold.

4. Legal Limits, Responsibilities, and Authority

Specific parameters for the investment of public funds in Virginia are found in Sections 2.2-4500 through 2.2-4606 of the Code of Virginia.

5. Delegation of Investment Authority

The Deputy City Manager, the Director of Finance, and the Treasury Division Chief are designated as the City's Investment Committee and are responsible for investment management decisions and activities. The Investment Committee may delegate the daily investment activities to an external cash manager procured through the competitive bidding process or to the Investment Division of the Virginia Department of the Treasury, which manages the Virginia Local Government Investment Pool. The Investment Committee is responsible for considering the quality and ability of the City staff and external cash manager involved with investment management and procedures. All participants in the investment process shall seek to act responsibly as custodians of the public trust.

The external cash manager shall develop and maintain written administrative procedures and internal controls specific to the City of Alexandria's investment program, which are consistent with this investment policy. These procedures will include TBMA Master Repurchase Agreements, master custodial agreements, wire transfer agreements, internal controls, authorized investments, authorized dealers, diversity and maturity limitations, safekeeping and collateralization, delivery versus payment, and other investment-related activities. The written procedures will be approved initially, and reviewed annually, by the Investment Committee and the City's independent auditors.

The external cash manager shall be responsible for all transactions undertaken and shall establish controls to regulate the activities of subordinate officers and staff. The external cash manager shall designate a backup in the event circumstances require timely action when the external cash manager is not available.

No officer or designee may engage in any investment transaction except as provided under the terms of this policy and the external cash manager's written procedures, once they are approved by the Investment Committee.

6. Prudence

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing the City's overall portfolio. The standard states:

"Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the expected income to be derived."

Limitation of personal liability. The Investment Committee, and those delegated with investment authority under this policy, when acting in accordance with the written procedures and this investment policy, and exercising due diligence, shall be relieved of personal responsibility for an individual security's credit risk or market changes, provided deviations from expectations are reported in a timely fashion and the liquidity and the sale of securities are carried out in accordance with the terms of this policy.

7. Ethics and Conflicts of Interest

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Employees and investment officials shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial or investment positions that could be related to the performance of the investment portfolio. Employees and officers shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the City.

8. Internal Controls

The external cash manager shall establish written internal controls that will be reviewed annually by the Investment Committee and by the City of Alexandria's independent auditors. The controls shall be designed to prevent loss of public funds due to fraud, employee error, misrepresentation by third parties, unanticipated market changes or imprudent actions by employees of the City of Alexandria or of the external cash manager. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

The internal controls shall address the following points:

- Control of collusion
- Separation of transaction authority from accounting and recordkeeping
- Custodial safekeeping
- Avoidance of physical delivery securities
- Clear delegation of authority to subordinate staff members
- Written confirmation of transactions for investments and wire transfers
- Development of a wire transfer agreement with the lead bank and third-party custodian

9. Authorized Financial Dealers and Institutions

All investment transactions on behalf of the City of Alexandria must be restricted to approved broker/dealers. The external cash manager shall maintain a list of brokers and dealers, which are approved for investment purposes. For brokers and dealers of government securities, the external cash manager shall select only primary government securities dealers that report daily to the New York Federal Reserve Bank. Investment officers shall not conduct business with any securities dealer with whom or through whom public entities have paid excessive prices or have sustained losses on investments through mismanagement by the securities dealer. The external cash manager must periodically (at least annually) assess the financial strength and integrity of the broker/dealer firms and the individual account representatives with whom it does business. The list must be approved by the City's Investment Committee before investing any City funds. The following criteria must be met by those firms on the list:

- a. Provide an audited financial statement for the most recent period.
- b. Proof of certification by the National Association of Securities Dealers.
- c. Proof of current registration with the State Securities Commission.
- d. Completion of the City of Alexandria's broker/dealer questionnaire.

In addition, the supervising officers at each depository, recognized securities broker/dealer, and the external cash investment management service shall submit certifications that they have reviewed this investment policy and agree to disclose potential conflicts or risks to public funds that might arise out of business transactions between the firm/depository and the City of Alexandria. All depositories and the external cash manager shall agree to undertake all reasonable efforts to preclude imprudent transactions involving City funds.

The supervising officer of the depositories or firms shall agree to exercise due diligence in monitoring the activities of other officers and subordinate staff members engaged in transactions with the City. Employees of any firm or financial institution offering securities or investments to the City of Alexandria shall be trained in the precautions appropriate to public sector investments and shall be required to familiarize themselves with the City's investment objectives, policies, and constraints.

As investments are made, the external cash manager shall rotate from the authorized bidder's list for bids/offers. An attempt will be made to alternate to all names on the list.

10. Authorized Investments

Under this policy, investments shall be limited to the instruments listed below. The investments are to be chosen in a manner that promotes diversity of issuer and maturity. The choice of high-grade government instruments is designed to ensure the marketability of those investments should liquidity needs arise.

a. Obligations of the United States Government, and direct borrowings of United States Government Agencies and Instrumentalities, and United States Government Sponsored Enterprises, with a stated maturity not to exceed three years and a liquid market with a readily determinable market value.

b. Repurchase agreements, collateralized by U. S. Treasuries, not to exceed 180 days to stated maturity. An executed TBMA Master Repurchase Agreement with supplemental amendments must be on file with the City of Alexandria and the counter party bank or primary dealer.

To anticipate market changes and provide a level of additional security for all funds, the collateralization level required will be 102 percent of the market value of the principal and accrued interest. U. S. Treasury Notes will be the only acceptable securities for collateral.

c. "Prime Quality" commercial paper, with a maturity of 270 days or less, of issuing corporations organized under the laws of the United States, or of any state thereof including paper issued by banks and bank holding companies. (Suspended pending future authorization by the City's Investment Committee.) "Prime Quality" shall be as rated by at least two of the following: Moody's Investor Services, Inc., within its NCO/Moody's rating of prime 1, by Standard & Poor's, Inc., within its rating of A-1, by Fitch Investor's Services, Inc., within its rating of F-1, or by Duff and Phelps, Inc., within its rating of D-1, or by their corporate successors, provided that at the time of any such investment: 1. The issuing corporation, or its guarantor, has a net worth of at least fifty million dollars; and 2. The net income of the issuing corporation, or its guarantor, has averaged three million dollars per year for the previous five years; and 3. All existing senior bonded indebtedness of the issue, or its guarantor, is rated "A" or better or the equivalent rating by at least two of the following: Moody's Investors Services, Inc., Standard & Poor's, Inc., Fitch Investor's Services, Inc., or Duff and Phelps, Inc. The commercial paper must be backed by a bank line of credit equal to 100 percent of the issuer's outstanding commercial paper.

d. Virginia Local Government Investment Pool.

The external cash manager must review the portfolio at least weekly to ensure compliance with the City's investment policy and to review the credit ratings of all securities in the investment portfolio. The external cash manager will promptly notify the Investment Committee in the event that any investment no longer meets the original purchase requirements. The external cash manager and the Investment Committee will then review and discuss available alternatives and arrive at an agreed upon course of action. The external cash manager will issue monthly reports confirming their findings.

Competitive Bidding Requirement. Securities will only be purchased or sold after (3) offers/bids are taken to verify that the City of Alexandria is receiving fair market value/price for the investment. Records will be maintained of the bids offered, the bids accepted, and the justification for each investment decision.

Delivery Versus Payment. All security transactions, including collateral for repurchase agreements, entered into by, or on behalf of, the City of Alexandria, shall be conducted on a delivery versus payment (DVP) basis. Written trade confirmation tickets must be received by the external cash manager and Treasury Division Chief within three business days of all trades. A manager who is not authorized to buy or sell securities for this portfolio must receive and review the written trade confirmation tickets. The written trade confirmation ticket must provide the trade date, par value, maturity, interest rate, price, yield, settlement date, description of security purchased, issuer's name, amount due, third-party custodial information, and show City of Alexandria as owner of security.

11. Unauthorized Investments

- a. The City will not "sell short," i.e., sell something it does not own in hope of buying it later at a lower price.
- b. The City will not buy on margin.
- c. The City will not contract for future delivery.
- d. The City will not deal in futures or options of any kind.

12. Diversity and Maturity Limitations

The investment portfolio shall be diversified by:

limiting investments to avoid overconcentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities),
limiting investment in securities that have higher credit risks,
investing in securities with varying maturities, and
continuously investing a portion of the portfolio in overnight repurchase agreements to ensure that appropriate liquidity is maintained in order to meet ongoing obligations.

Diversification strategies shall be established and periodically reviewed. At a minimum, diversification standards by security type and issuer shall be:

	Security Type	Maximum Percentage of the Total Funds Available For Investment
a.	U. S. Treasuries and securities with the U. S. Government's guarantee	85%
b.	U. S. Government agencies and instrumentalities	85%
c.	Repurchase agreements, fully collateralized by U. S. Treasuries	50%
d.	Commercial Paper (in total)	35%
e.	Commercial Paper of any one Issuing Corporation	5%
f.	Virginia Local Government Investment Pool	100%

The external cash manager shall diversify maturities, and to the extent possible, match investments with anticipated cash flow requirements. Matching maturities with cash flow dates will reduce the need to sell securities prior to maturity, thus reducing market risk. The average maturity of the City's investment portfolio at the end of any given month shall be up to one year. No less than \$15 million will be invested in securities with maturities of 14 days or less. Excluding the Virginia Local Government Investment Pool, securities with more than 36 months to maturity are not authorized for the City's investment portfolio.

13. Safekeeping and Collateralization

All trades where applicable will be executed by delivery versus payment (DVP) to ensure that all securities are deposited in an eligible financial institution prior to the release of funds. Securities will be held in safekeeping in the City of Alexandria's name in a segregated or pledged position in the Trust Department's account of an independent third-party custodial bank at the Federal Reserve Bank or Depository Trust Company (DTC). The custodial bank may not be within the same holding company as the bank from which the securities are pledged. At no time will the City's securities or collateral for repurchase agreements be commingled with those of other investors.

All safekeeping arrangements shall be approved by the Investment Committee and an agreement of the terms executed in writing. The third-party custodian shall issue original safekeeping receipts to the external cash manager, and duplicates to the Treasury Division Chief, listing each specific security, rate, description, maturity and cusip number. Each safekeeping receipt will clearly state that the security is held for the City of Alexandria or pledged for the City of Alexandria.

14. Perfected Security Interest

To ensure the City has a perfected security interest, the external cash manager must obtain written authorization from the City's Investment Committee prior to selling any security from the City's investment portfolio. Prior to making a purchase on behalf of the City, the external cash manager must notify the City's Investment Committee of the par value, maturity range, and type of security to be purchased.

15. Performance Evaluation and Reporting

By the fifth of each month, the external cash manager shall submit monthly reports to the Investment Committee containing sufficient information to permit an informed outside reader to evaluate the performance of the investment program. By July 5 each year, the external cash manager shall submit an annual report to the Investment Committee. The reports will be prepared and reviewed by individuals who are not responsible for buying and selling securities. In addition, the market value of the portfolio shall be calculated at least monthly and a statement of the market value of the portfolio shall be issued at least monthly. The reports will summarize investment activity and include, at a minimum, the following information:

Reduction in Force (RIF)

Administrative Regulation 6-22 – Effective January 18, 2012

AUTHORITY

The authority for the implementation of this Administrative Regulation is contained in the City Charter and in those City Code sections defining the authority of the City Manager to establish administrative procedures for the direction, supervision and coordination of personnel within the administrative branch of City government, and for the use of City equipment, services and facilities.

PURPOSE

This Administrative Regulation will establish the policy of the City Administration in the event of a Reduction in Force (RIF) of the employees of the City of Alexandria.

POLICY

The City of Alexandria will implement a Reduction in Force only when such action is required by an identified service reduction. Such a service reduction may be the result of a policy decision by the City Council, or it may be made necessary by program modification or funding shortfall.

A reduction in force is to be accomplished in a way which will reduce adverse effects on employees to the greatest extent which is reasonable under the circumstances, and in a manner consistent with the City's commitment to diversity.

Exceptions to any part of this policy may be made by the City Manager, as needed to ensure that service levels are maintained. Events not expressly covered by this policy shall move forward with a recommendation by the Director of Human Resources and ultimate decision by the City Manager.

REDUCTION IN FORCE

The administration shall consider the following:

1. Normal attrition.
2. Job sharing or reduced work schedules.
3. Termination of temporary appointments in the affected classifications.
4. Layoff of regular employees in the affected classifications.

DEFINITIONS

Administration: The City Manager or his or her designee.

Affected Classification: The position classification to which the employee is assigned when he/she becomes subject to the reduction in force procedure.

Department: All offices, divisions, and other work units that are under the control of a single Department head.

Month: For the purposes of seniority, a month is credited after an employee serves 15 calendar days of the month in which the employee is in a paid status.

Probationary Employee: An employee who is serving the first twelve months of a regular position is considered to be a probationary appointment. The initial probation may be extended up to an additional six months. Employees are removed from probationary status by written approval of their department head or designee.

Reduction in Force (RIF): A Reduction in Force is the elimination of a position or positions due to an identified service reduction, a change in a work program, design or service within a department or City-wide, or a technological change or advancement that impacts work force needs. Employees subject to a RIF may be separated from the City payroll.

Grant Funded Employee (Restricted/Unrestricted): A source of funding for an employee's position. May include grant only or grant/City funding sources.

Service Needs: A position within an affected classification that requires unique knowledge, skills, and abilities that are not required for every position in the affected classification and that cannot be acquired by other employees in 6 months or less.

Temporary Appointment Employee: This includes any City employee designated as seasonal, undefined, temporary, regular/limited term. Exceptions from the RIF of temporary appointments can be made based on the service needs of the department.

REDUCTION IN FORCE PROCEDURE

The City Manager will make a determination of a need to reduce the work force as the result of a reduction in service or as the result of inadequate funding to meet payroll obligations for any specific program, and within a department. The affected Department Head will recommend to the Office of Management and Budget the positions to be eliminated through the Goal Group process. The Director of Management and Budget, in concert with the Director of Human Resources will forward recommendations with appropriate comments to the City Manager. Upon the approval of the City Manager, the Human Resources Director shall be responsible for the implementation of the Reduction in Force directive. The directive shall specify the number of positions in each

classification to be affected. The following procedures will be followed unless an exception is approved by the City Manager:

Step 1. Normal Attrition

Upon receipt of the determination of the City Manager to implement a Reduction in Force, the Director of Human Resources may halt the processing of advertising or selection for classifications of employees indicated in the RIF order.

Step 2. Notice to Affected Employees on the City Payroll

The Director of Human Resources shall develop a list of employees by classification. This list will be used to identify the affected classifications in the RIF order. The Human Resources Director will issue a written termination notice to employees in the affected classifications as soon as practicable upon receipt of the RIF order. Individual employees will be given a written notice with a minimum of thirty (30) days prior to termination. Copies of all such notices will be forwarded to the employing department.

Step 3. Human Resource Department Job Search Assistance

Every effort will be made by Human Resources staff to assist employees to apply for positions which are vacant and approved for hire by the Office of Management and Budget. The ability of the employee to perform the work assignment will be assessed in the application process. Employees will serve a new probationary period of one year. All employees so placed will be evaluated at the end this probationary period and their demonstrated performance will be the sole basis of any determination to retain or to terminate the employee from the assignment.

Step 4. Layoff of Regular Employees

The layoff of regular employees will be initiated, if necessary, to complete the reduction specified in the RIF order. Placement on the Recall List will be made by job classification and seniority.

SALARY ASSIGNMENTS

Regular full-time and part-time employees placed as the result of this Administrative Regulation, to a work assignment in their same position/classification, shall retain their same salary step and within-scale eligibility date. Employees who accept a lower classification shall be placed on the step of their new salary grade which is the nearest to their original salary. If placed between two pay steps, the employee will receive the higher step in the new grade.

Employees will receive a new merit date that documents the start of the one-year

probation. Employees, who accept a position whose salary is at the top of or above the pay scale, shall have their salary frozen at their current salary level until the range exceeds their current salary.

SEVERANCE PAY

Severance pay is authorized to be paid at an employee's current rate of pay at the time of lay off and granted to Regular employees laid off under the procedures of this regulation and in accordance with the following formula. The pay does not count toward hours worked in any pay period in which it is granted. Employees who are affected by the RIF who elect to retire in lieu of a non-retirement separation are eligible for severance pay.

Completed YEARS OF SERVICE WEEKS OF SEVERANCE PAY

0 to 5	3 weeks pay
6 to 10	4 weeks pay
11 to 15	5 weeks pay
16 or more	6 weeks pay

REEMPLOYMENT AND RECALL LISTS

All employees in good standing who are affected by the RIF action will be placed on a Recall List for their position/classification for a period of one year from separation. All future vacancies in these classifications will be filled based on job classification and then seniority with the City for the duration of the Recall List. The individual must possess the necessary skills and experience to perform the duties of the vacancy. Individuals recalled to fill the same classification from which they were removed (vacated) will be restored to regular employment and at the same step/grade. Individuals recalled to a classification other than that in which they have been previously employed will be required to satisfactorily complete a new one-year probationary period. If an employee accepts an alternative city position (one which they may have applied for and were selected), will be removed from the Recall List.

EMPLOYEE RESPONSIBILITY

Any employee laid off and placed on a Recall List will be responsible for notifying the City Human Resources Department of any change in address or telephone number. Employees will be notified to return to work by registered mail. Any employee who fails to report to work as directed (within ten working days) following receipt of notification to return to work, will forfeit all further recall rights.

AID TO EMPLOYEES

Individuals who are laid off under this Administrative Regulation shall be entitled to Unemployment Compensation as provided by the Code of the Commonwealth of Virginia. The City Human Resources Department will provide assistance to aid in filing for such unemployment compensation. Laid off employees will be paid for any earned annual leave or compensatory time (if eligible for payment) on the next pay day following their lay off. Upon re-employment within six months, all earned but unused sick leave will be reinstated if not reduced to zero by a sick leave payout at termination. The employee's annual leave accrual rate at the time of the layoff will be restored upon reemployment in a benefited position if the employee is rehired within six months.

All recalled employees shall be subject to the provisions of AR 6-18, for purposes of reemployment and RIF. For the duration of any lay off, laid off employees will be given priority consideration for any employment opportunity for which they apply and are qualified.

GRANT FUNDED OR PARTIALLY GRANT FUNDED POSITIONS

A grant funded position is considered restricted when the grant and required match is funding only the scope of the position outlined in the grant. This position would not be expected to backfill other duties in the City or assist in a different capacity for the general City benefit as in doing so would be outside the scope of expectations outlined in the grant. Under this scenario, the employee occupying this position is not subject to the RIF policy.

A grant funded position is considered unrestricted when the grant and its required match supports a greater level of service or benefit to an existing City service/benefit, or when the grant covers a broad range of duties not intended in its award to be directed to a specified position or number of positions. The employee(s) occupying this position is subject to the City's RIF policy.

Positions created to perform restricted grant functions that aren't fully supported by the grant are subject to the benefits in the City's RIF policy. Existing positions that are subsequently assigned in whole or in part to restricted grant functions are also subject to the City's RIF policy.

Using the aforementioned definitions, the Human Resources Department in conjunction with Office of Budget and Management will create lists of employees who are, and are not subject to the City's RIF policy.

APPEAL

Any employee who believes that the City did not follow the prescribed RIF process as specified in this Administrative Regulation shall have access to an administrative hearing with the Director of Human Resources, utilizing the procedure contained in A.R. 6-20. A

reduction in force implemented under this Reduction in Force regulation is not grievable pursuant to A.R. 6-21, Grievance Procedure, (IV)(B)(6).
